

**A lifetime
of joy.**

lamininate.

The start of your new adventure.

Ocean 8 V4 Chestnut White ●

Let happiness inside.

At BerryAlloc, our laminate floors are not only **made in Belgium**; they're made for all kinds of people and all kinds of lifestyles. Find **unlimited freedom in an extensive range of natural wood looks, colours, and possibilities**: light, dark, regular... A stunning herringbone pattern or an ever-practical 100% water-resistant floor? It's all up to you!

Turn your home into a carefree zone with a **premium-quality laminate floor** that's highly scratch resistant, easy to clean, and guaranteed to last a lifetime. Open the door to cosiness and comfort and let these laminate floors support you with every step of the way. After all, our floors are made for moments of joy. Carefree moments of joy.

Carefree moments.

Real life doesn't always go according to plan. Luckily, **your laminate floor is one less thing to worry about.**

100% water resistant

Had a clumsy moment? No worries. The surface of our laminate planks is unable to absorb any liquid, making it fully splash resistant. Combined with our **hydro+ water-repellent coating** that further protects the edges of the planks, a compact locking system, and specialised hydro+ accessories used around the perimeter of the room, you've got yourself a **100% water-resistant floor that can withstand all kinds of spills.**

DISCOVER OUR PIONEERING HYDRO+ TECHNOLOGY

Back in 2008, BerryAlloc was the first company to introduce water-resistant laminate to the market with its innovative hydro+ technology. This **unique formulation** has indisputably proven its durability, quality, and value for money after years of exposure to daily situations.

How does it work?

A **hydrophobic coating** is applied to all sides of the plank, effectively repelling water when it comes into contact with the joints. Applied during manufacturing, the Ocean+ and Chateau+ collections are completely water resistant when they leave the production line.

↳ Curious to see it in action?
Watch the video!

Ocean 8 V4 Select Sand Natural ●

Chateau+ Walnut Brown ●●

Fade and stain-free

What about other long-term effects? We'll let you in on a secret: **our floors can withstand spills from everyday products** such as food and make-up, so you're all set in that area too. Plus, our floors are **fully UV resistant**, so they won't fade over time. So open up those curtains and let the sun shine through!

Easy to install

Planning to tackle the installation yourself? With the right tools and the instructions available (you'll find them in the packaging or on our website and YouTube channel), you're fully prepared for a **quick and easy installation**. Simply slot the planks into place with the help of our snap-in-place locking system, and you'll be ready in no time.

Scratch resistant

Not sure how your new floor will fare with pets in the house? We can already tell you now: it'll do just fine! Our laminate floors are highly **scratch resistant** thanks to our **premium-quality materials**, so those paws and claws can do no harm.

Easy to maintain

All those splashes and spills are easily wiped away to leave a sparklingly clean surface. For regular maintenance, use a soft brush, vacuum cleaner, or microfibre mop along with our biodegradable **laminate cleaner**.

Ideal for underfloor heating and cooling

Keep your toes toasty on our laminate floors! They're perfectly **compatible with underfloor heating and cooling**, an energy-efficient system to keep your house at an ideal temperature. You'll find a dedicated manual with more information on our website.

Quality moments.

Spend quality time on a floor that's produced with only the **highest standards** in mind.

Made to last a lifetime

A home makeover requires a considerable investment, so make sure you get your money's worth by using **quality flooring**. And that's something you can find at BerryAlloc: our laminate is made from the best materials and rigorously tested for strength, water and splash resistance, impact damage, fading and discolouration, as well as stability and wear. So let our floors become the solid foundation to live your life to the fullest, as we wholeheartedly **guarantee** they're made to last a **lifetime** in your home.

Premium quality floors

You're looking for a floor that'll suit your lifestyle. Whether it's private and peaceful, or bold and boisterous, our laminate floors are more than ready to take on the challenge. The use of **superior materials** and a **solid locking system** creates a floor that's **made to last**, with high levels of abrasion and scratch resistance. These premium quality floors are more than prepared to help withstand life's trials and tribulations.

Floors made to relax.

Made in Belgium

Our laminate floors hold the 'made in Belgium' label – something we're very proud of. The **entire creation process** from concept and design to manufacturing, testing, and packaging takes place in our plant in Menen, Belgium, under the careful eye of our dedicated flooring experts.

made in  Belgium

Responsible floors

Our floors are not only made with your comfort in mind, but also with great respect to the environment. At BerryAlloc, we strive to use as little waste as possible. Our laminate floors are manufactured in Belgium to reduce the carbon footprint. Our laminate is **PEFC-certified PEFC/07-31-229** (Programme for the Endorsement of Forest Certification), supporting the promotion of Sustainable Forest Management. And with an extremely **low VOC** (Volatile Organic Compound) **emission**, our floors are safe and healthy to install in your home.

Beautiful moments.

Enjoy many beautiful moments with a floor that'll bring you a **step closer to nature**.

Genuine wood looks

Lose yourself in the details of our wonderfully **matt and lifelike wood decors** – they're practically indistinguishable from real parquet. Each wood type and shade was **selected and designed by our experts with the utmost care**, choosing only the most authentic looks. Our team even took it a step further and constructed several designs from exclusive high-definition scans of actual pieces of wood. How cool is that?

Natural knots and cracks

Our laminate experts have put a lot of research into matching the right structure with the distinct characteristics of each wood type. From **soft and subtle wood structures** for our pine designs to a unique, **real wood structure** for our exceptional oak designs; every single knot or crack is outlined for a highly realistic effect.

Mix & match:

(*) Colour character: discover the science behind the colour character of your floor on p. 22.

Choosing the right colours for your interior.

Although the colour of your floor seems fairly obvious at first sight, it has a whole layer of subtle undertones. This underlying shade is called **the colour character** of your floor. **Harmony Lab** will help you to match this with the colour scheme of your interior.

How it works

The colour character of our floors are categorised in 6 colour groups:

- yellow
- orange
- red
- purple
- blue
- green

Harmonious colours

Once you know the colour character, the **chromatic colour wheel** will guide you in your decisions.

Using **harmonious colours** means using colours on the colour wheel that are either the same colour or the neighbouring colour of your floor's colour character. For example: if your floor has a blue character, this means using variations of blue, green, and purple.

Using **contrasting colours** means using colours that are directly opposite to your floor's colour character on the chromatic colour wheel. For example: if your floor has a yellow character, offset it with purple elements in your interior.

You can find the colour character for every decor of our laminate on p. **14 - 21**.

Contrasting colours

Are you having difficulty imagining your new laminate floor in your own home? **Floorfit** has got you covered. This **digital tool** simulates your top picks in a room of your choice. Take a moment to try out your favourite choices and figure out what suits your style best!

Turn imagination into reality.

Find out how it works:

Snap

Take a photo of your room and **upload** it to **Floorfit**. Or choose from a range of standard rooms in the tool.

Select

Choose the **colour** you want to visualise through the built-in filters. Don't forget to select a laying direction and pattern.

Floorfit

Have you found your dream floor? **Share** your final look with family and friends, or get in touch with your **local BerryAlloc dealer** for the next step.

What are you waiting for?
Floorfit it out!

Choose colours that make you happy.

Install.

Yay! You've just picked out your new floor. **What's next?** Now's the moment to determine **which products** you need in your installation and decoration journey. These will help your floor achieve that wow-factor and provide you with optimal living comfort. Not sure about what you need? We'll help you with every step of the way.

Underlays

Start by selecting a suitable underlay.

A high-quality underlay can prevent creaking and reduces the sound of your steps in the room and the floor below. It's an essential item to keep your floor in great shape and will significantly improve your living comfort once installed.

The **best all-rounder** and required for our **herringbone laminate collection**.

Excellence Plus
10 m² – 2,5 mm

Excellence Impact+
12 m² – 3 mm

Excellence Go 60
15 m² – 2 mm

 Corrects irregularities and protects locking system	✓	✓	✓
 Impact sound The sound that gets carried to the room below	-21 dB	-19 dB	-19 dB
 Reduces walking sound The sound of your footsteps in the room	●●●●	●●●○	●●○○
 High impact resistance	●●○○	●●●●	●●●○
 Suitable for underfloor heating/cooling	●●●●	●●○○	●●○○

Underlay Excellence Plus

You can find **all reference numbers** for our accessories on p. 38

All our underlays have been tested and approved for all BerryAlloc laminate collections – with the exception of our herringbone laminate collection, which should always be installed alongside Excellence Plus. They provide:

- A **flat base** to help correct small irregularities. This will support the necessary expansion behaviour while guaranteeing perfect performance.
- A combination of great **acoustic absorption** and **low thermal resistance**.
- An **integrated moisture barrier** to **protect** against rising damp.

Installation tools

Use our DuoLoc tapping block or our unique and super efficient BerryAlloc installation tool for a fast and flawless installation.

Ocean 8 V4 Epic Natural

Hydro+ kits for Ocean+ and Chateau+

To fully protect your Ocean+ and Chateau+ floor around the edges of the room, you'll need **the right accessories for a 100% water-resistant installation**. Our hydro+ kits make sure your floor is able to expand and remain water resistant at the same time.

Fillertwine

Use the Fillertwine joint sealing strip as a base for sealant. Fill in all expansion gaps with Fillertwine to make sure your floor can still shrink and expand, without exposing it to water.

10 m / Ø 8mm

Hydro+ sealant

This specially developed sealant should be used on top of the Fillertwine in expansion points at perimeters, under doorways and around pipes. The hydro+ sealant protects the edges of your floor from coming into contact with humidity.

310 ml

A QUICK AND EASY INSTALLATION

Our laminate floors are easy to install and require few special tools. There are **three different locking systems available**:

- **DuoLoc** for our standard planks
- **OmniLoc** for our herringbone planks

You'll find detailed installation instructions available in the packaging and on our website. Make sure to read the instructions beforehand and closely follow each step during installation.

Check out our **installation videos** on **YouTube!**

Finish.

Profiles

Remember to think about using the right profiles so your floor can smoothly transition from one room to another, all while respecting the necessary expansion behaviour. There are different profiles for different requirements, all available in **matching colours** to your floor or in a modern **aluminium**. Discover which ones work for you.

Matching T-Profile

To connect two floors of the same height.
2400 x 40 x 8 mm
(L x W x H)

Matching reducer profile

To connect two floors with different heights.
2400 x 45 x 12 mm
(L x W x H)

Matching end profile

To finish your floor along a wall or a window.
2400 x 28 x 8 mm
(L x W x H)

Match your floor

TIP

Matching skirtings will make your **floor seem larger** whereas **paintable skirtings** will make your **walls seem longer**.

Match your wall

Skirtings

Time to think about that finishing touch. Our skirtings create a neat and tidy transition between wall and floor. Do you want **matching skirtings**, fully in line with your new floor? Or **white, paintable** skirtings to take you in any decoration direction? Your choice!

Matching skirting

Installation: glue or clips
2400 x 12 x 60/80 mm
(L x W x H)

White skirting

Installation: glue or clips
2400 x 12 x 60/80 mm
2400 x 14 x 100/110 mm
2400 x 26 x 110 mm
(L x W x H)

Matching quarter round

Installation: glue
2400 x 14 x 14 mm
(L x W x H)

White quarter round

Installation: glue
2400 x 14 x 14 mm
(L x W x H)

WHAT ABOUT INSTALLATION?

There are **two ways to attach** your **skirting board** to the wall.

Glue it
Use our **BerryAlloc glue**.

Fix it
Use **clips*** and **plugs**.

(* Only for 60 and 80 mm)

Ocean 8 V4 Texas Light Natural ●●

Maintain.

Make those moments of joy on your new floor last longer by regularly using our specially developed **BerryAlloc laminate cleaner**. It's suitable for first-time maintenance as well as regular use and will provide extra protection for your floor. Plus, it's **biodegradable** and has a pleasant fragrance. All it requires is one capful to a bucket of water.
